

Login details for WiFi

- **iOS:** From version 11 of iOS (planned to be released in the fall of 2017) you can scan login details for WiFi with the built-in camera app.
- **Android:** Use the app *Barcode Scanner* from *ZXing Team* available in *Play Store* and choose *Connect to Network* after scanning the code.
- **Others:** Use the login details below.

SSID: foo

Password: bar
